# Warranty, Terms and Conditions

OFS casegoods and conference products are guaranteed to be free from defects in design, material, and workmanship, given normal use and proper care, for 12 years of single-shift service with the exceptions noted below. OFS will repair or replace, at our discretion without charge to the original purchaser, any product or part thereof which fails as the result of such a defect during the warranty period. OFS assumes no responsibility for repairs to products that result from user modifications, attachments to a product, misuse, abuse, alteration, or negligent use. Except as stated above, OFS makes no expressed or implied warranties as to any product, and, in particular, makes no warranty of merchantability or of fitness for any particular purpose. OFS shall not be liable for consequential or incidental damages arising from any product defect.

All components not listed below — 12 years  
All drawer glide suspensions — lifetime  
All locking mechanisms — lifetime  
All door hinges — 12 years  
Door latches — 12 years  
Door pulls — 12 years  
Launch Worksurface Strip Light — 3 years  
Casters/pneumatic lifts — 2 years  
Projection Screens — 2 years

This warranty does not cover:

- Damage caused by a transportation company.
- Natural variations in color, grain, or texture of wood and other covering materials over which OFS has no control.
- Damage created by loading file drawers with anything other than hanging files.
- Freight or other shipping charges on returned product or parts, labor or service.

## **ordering information**

All orders should be placed with:  
OFS  
1204 East 6th St.  
P.O. Box 100  
Huntingburg, IN 47542  
800-521-5381 Fax 812-683-7256  
order\_entry@ofsbrands.com

A customer drawing or sketch of the planned configuration in modular applications will facilitate order processing.

## **prices**

All prices herein are list prices including delivery to one destination, effective with the date printed on the cover and supersede all other published price lists. US List Prices are domestic prices only for shipment within the Continental United States. Prices are subject to change without notice, unless quoted in writing. Possession of the price list does not constitute authority to sell or offer for sale OFS products.

## **acknowledgements**

Orders are acknowledged upon receipt of credit approval. Your acknowledgment is a detailed description of items, prices, shipping information, and shipping date. Please read your acknowledgment closely and notify OFS immediately of any discrepancies. OFS is not responsible for errors on orders placed by phone without written confirmation.

## **availability**

OFS is committed to the fastest possible delivery of all products. Items on the OFS Arrival Day 12 program will be delivered on or before 12 business days from date of credit approved order. OFS Arrival Day 12 items that deliver in 12 business days are indicated by a **12** symbol following the model number. Statutory holidays and scheduled factory vacations may add to acknowledged lead times of Arrival Day 12 orders. Available factory capacity for Arrival Day 12 is filled by orders received on a “first come, first serve” basis. If the normal Arrival Day 12 lead time is not available for your orders because available capacity has been filled, you will be immediately advised. Arrival Day 12 orders must be “clean” when received in order to be considered officially received on a given day, and lead times will be acknowledged from the date orders are determined to be “clean.” Changes to Arrival Day 12 orders are not allowed under any circumstances.

**Items ordered for delivery under OFS's Arrival Day 12 program must be clearly designated on customer's purchase order by placing the letters AR in front of the model number.**

Example: **AR-CT1-42-4G-EG-QR**

**On purchase orders that contain items for both Arrival Day 12 and standard lead times, please clearly mark order to ship and backorder.** If ship and backorder is not specified, these orders will be shipped complete at standard lead times. All other items are available within our normal manufacturing schedule. For information on stock availability, call our **customer service hotline 800-521-5381.**

Note: Planned shipping dates may be delayed due to fires, strikes, natural disasters, or other causes beyond our control.

## **quantity orders**

Contact your OFS Customer Service Representative to verify inventory and production schedules to ensure requested shipment date prior to placing large quantity orders.

## **delivery and freight charges:**

All shipments are F.O.B. point of shipment, freight prepaid and allowed, excluding fuel surcharges. Shipments outside of the Continental United States are freight prepaid and allowed to port of exit. OFS reserves the right to select the most appropriate carrier and routing on all shipments; however, we will try to accommodate requests for your preferred carrier. OFS reserves the right to implement a fuel surcharge. **Orders of less than \$1,500 net** will be assessed a handling charge of \$100 net per order. Any charges arising from failure to receive a shipment, rerouting while in transit, or carrier storage charges are not included in prices shown. Orders requiring special services are subject to an additional charge.

These services include:

- Reconsignment from original destination to new destination - \$35 plus \$3.00 per mile net
- Refused/Returned Freight
  - ° Freight refused at destination and returned to OFS - Double Freight
  - ° Freight refused at time of delivery; returned to OFS to deliver at a later date - Triple Freight

- Detention Fees (after 2 hours of waiting) - \$85 net per hour
- Weekend delivery available Friday after 3:00 p.m. through Sunday night, or Holiday - \$600 net per truck
- Customer Pickup
  - ° Customer Request for 3rd party to pick up freight at OFS terminal - \$125 net
- Change of Tags/Address/Phone #'s on Shipments - \$35 net

#### **special orders**

The OFS line of office furniture is among the most complete in the industry. However, should a particular need arise requiring size modification or customization, contact your Customer Service Representative for a price quotation. Because of the uniqueness of the product, special orders are not subject to cancellation.

#### **cancellation storage charges**

All orders accepted by OFS are considered firm and binding and are not subject to cancellation.

#### **warehouse storage charges**

If a shipment is held beyond fourteen (14) calendar days after the order is ready for shipment at your request, a .067% per day (2% per month) storage charge will be assessed. The effective date will be fourteen (14) calendar days after the order is ready for shipment, as long as this date is after the acknowledged ship date. Further, the prices applied to the order will be those prices in effect at time of shipment.

#### **extended production and ship dates**

Orders placed with OFS with extended lead times as requested by you will be subject to price in effect at time of shipment.

#### **damaged merchandise and freight claims**

1. Inspect all cartons for damage and verify carton quantity. All shipments are delivered to the transportation company in good condition; OFS's liability ceases at this time. Do not refuse merchandise damaged in transit. Instead, enter a claim with the transportation company.
2. Record damages and/or shortages on the bill of lading and freight bill. Do not accept the shipment until all shortages are noted on both the bill of lading and the freight bill. Sign only for the items you receive. If you give the delivering carrier a clear receipt for a shipment, the carrier is relieved of further responsibility.
3. If concealed damage is found: Notify the delivering carrier at once and request an inspection. For shipments via Styline Logistics, notify your OFS Customer Service Representative. This must be done within 15 calendar days of delivery. Without this inspection the transportation company will not entertain a claim for loss or damage. If the carrier will not perform the inspection, you should prepare an affidavit that you contacted the carrier, noting the time and date, and that the carrier failed to comply with your request. All shipping cartons and inner packing must be retained for carrier inspection. Do not move the damaged merchandise from the receiving location. It must also be retained for the inspection.

#### **return of merchandise**

OFS will not accept returned merchandise without a signed Return Authorization (RA) issued by our Customer Service Department. All returned merchandise must be properly packaged and cartoned to prevent further damage. Carton must be clearly marked with identifying RA number so that proper credit can be issued. We will consider issuing RAs for the following reasons:

- Manufacturing defect (must be inspected by an OFS sales representative)
- OFS order processing error
- Shipping error
- Duplicate shipments
- Mismarked cartons

All merchandise must be returned within thirty (30) days of the date of the RA to receive credit. Freight damage, signs of usage, missing parts, etc., will be adjusted on the amount of credit to be issued.

#### **repair charges**

Reimbursement from OFS for repairs must have prior approval.

#### **finishes**

The patented Euroluxe™ finish is a chemically re-engineered Urethane clear coat that preserves the beautiful depth and clarity of OFS' finishes, but allows for much greater performance with chemical and scratch resistance, as well as the complete elimination of dangerous formaldehyde emissions. The Euroluxe™ finish system achieves indoor air quality standards set by LEED and BIFMA furniture emission standards and allows all products to achieve GREENGUARD Indoor Air Quality Certification® by the GREENGUARD Environmental Institute.

SilverBan™ technology is an antimicrobial utilizing silver ions infused into the Euroluxe™ wood finish for antimicrobial protection on all exposed wood surfaces. SilverBan™ inhibits the growth of mold, mildew, fungus and bacteria on wood surfaces, as well as odors caused by bacterial growth, by 99.99%.

#### **custom finishes**

Custom finish color matching is available for special requirements. OFS must be provided with a suitable 8" x 10" or larger finish sample. OFS has a complete library of previously developed custom finishes that may be an acceptable match. However, new custom finishes can be developed to meet specific needs. **There will be a \$300 net upcharge per order for new custom finishes (waived on projects of \$100,000 list price or more). Custom finish upcharge for repeat or additional orders will be \$150 per order, even when the upcharge was waived on the original project.** Custom finish matches are valid for 12 months from sample date. After this time period, custom finishes must be rematched and reapproved for use.

#### **finish disclaimer**

Some worksurface accessories with plastic feet can penetrate or burn the finish. This is not a defect in the finish. Wood is a natural product and minor variations in wood color, grain, and texture may be visible even though the pieces are finished at the same time. Also, light finishes when exposed to ultraviolet rays may darken and change color. These are not defects in the finish, and merchandise cannot be replaced because of these natural variations.

#### **BIFMA and ANSI testing**

OFS is a member of the Business and Institutional Furniture Manufacturer's Association. Tests developed by BIFMA and approved by the American National Standards Institute (ANSI) determine the strength and durability of casegoods and seating in its everyday use. Although this testing does not serve as a warranty or guarantee, OFS products within this price list generally meet or exceed applicable BIFMA and ANSI standards.

#### **memberships**

OFS is proud to be a member and support these organizations:

**tackboard fabrics**

All OFS carded fabric patterns except Vinyls and Leathers are preapproved for tackboard application (see OFS Seating Price List for patterns and colors). A complete list of fabrics that have been tested for tackboard application can be accessed at [www.ofs.com](http://www.ofs.com) • Products • Materials • Textiles • Tackboard Fabrics. Each fabric pattern and vendor is listed with a “YES” or “NO” for approval. If your selected fabric is not on the list, please contact your Customer Service Representative for approval.

**locking information**

Standard Locks are always keyed alike with key number 345T. Standard locks are placed inside the top drawer for shipping and are field installed.

**specific key options**

Requirements for specific key options by office must be specified on the purchase order at the time the order is placed. Model Numbers with specific key options will specify “NO LOCK CORE” on the acknowledgement. A separate line item will be listed on the acknowledgement as “LOCK CORE SET.” Specific lock core and key (only 1 key is now included) will be sent separately (see Field Installation below).

**keyless cabinet locking system**

Keyless cabinet locking system uses radio frequency technology. One transmitter pad can operate single or multiple receiver latches. The locking system operates with separate and programmable user and supervisor codes. Optional modes are available for manual locking, self locking or single use locking of drawers and doors. Please contact your Customer Service Representative for applicability and for a price quotation.

**field installation**

Blank lock cores are installed at factory, allowing specific lock numbers to be ordered but shipped in a separate package for field installation. Lock Core Order Form (see page 5) **must be filled out and submitted** with the purchase order. Lock core/key numbers 100 through 150 are available. For quantity of locks per unit, please visit [www.ofs.com](http://www.ofs.com) and select Resources • Forms & Documents • Lock Core Guide.

**re-keying in the field**

Lock core and key can be purchased separately. The purchase order form must specify quantity, key number(s), and color of the core (available in black, brass, or nickel). Key numbers above number 150 are not stocked and may require a 2-week lead time. Orders ship standard UPS ground. Please Note: A lock core change tool must be ordered for lock cores that will be re-keyed in the field.

<b>item</b>	<b>list</b>
Lock Core and Key	\$15
Lock Core Change Tool	\$26
Master Key	\$26

All items are non-returnable.

## Liability Clause:

This pricing structure represents the more commonly requested product modifications. Although these modifications can be applied to the vast majority of products listed in our price books, some modifications cannot be applied to products with non-standard design features. Please contact your Customer Service Representative if you require assistance.

## How to Order:

Example

Qty	MOD#	Model Number	Modification Detail	Options	Price
1	MOD#1	EL-1628MBFC	with VG Forte Black pulls	MCC - VG	\$1,409 + \$75 = \$1,484

# OFS Environmental Attributes

## Euroluxe™ with SilverBan™

The patented Euroluxe™ finish is a chemically re-engineered Urethane clear coat that preserves the depth and clarity of OFS Brands finishes and achieves GREENGUARD Certification. SilverBan™ technology utilizes silver ions infused into the Euroluxe™ wood finish for anti-microbial protection on all exposed wood surfaces.

All OFS Brands products have achieved **GREENGUARD** Certification from UL Environment, an independent organization that works to promote global sustainability, environmental health, and safety.

Representative samples of products that have achieved GREENGUARD Certification have been tested and certified to meet some of the world's most rigorous, third-party chemical emissions standards—helping reduce indoor air pollution and the risk of chemical exposure while aiding in the creation of healthier indoor environments.

**level** is the multi-attribute, sustainability standard and third-party certification program for the furniture industry. It has been created to deliver the most open and transparent means of evaluating and communicating the environmental and social impacts of furniture products in the built environment.

Taking into account a company's social actions, energy usage, material selection and human and ecosystem health impacts, level addresses how a product is sustainable from multiple perspectives.

With level, customers can make informed choices about commercial furniture that exceed single attribute eco-certifications. The level brand identifies that a product has been vetted by an independent third party certifier and its numeric marking 1, 2, or 3 indicates what threshold of certification it has achieved.

Manufacturers – big and small – now have a methodology to present the environmental characteristics in a clear, easily understood manner with a vernacular that gives end users the ability to make an “apples to apples” comparison.

Scientific Certification Systems (**SCS**) is a global leader in independent certification and verification of environmental, sustainability, stewardship, food quality, food safety and food purity claims. For more than 25 years, SCS has developed internationally recognized standards and certification programs in pursuit of the highest level of environmental performance and social accountability. OFS Brands has utilized SCS as our third party certifier for both our FSC-COC and BIFMA level certifications.

The **FSC®** standards (Forest Stewardship Council) represent the world's strongest system for guiding forest management toward sustainable outcomes. [us.fsc.org](http://us.fsc.org)

FSC certified products are manufactured with material that comes from managed forests that are traceable from the time the logs are cut to the time the final project is installed and are recorded by way of a COC or chain of custody claim on all invoices.

The demand for certified forest products has grown significantly in recent years. OFS Brands' goal to act as a responsible steward of the environment encouraged us to pursue our FSC Chain of Custody (COC) certification which would provide our customers (Dealer, A&D Community and End-users) the added reassurance they've done their part to be earth friendly in their product purchase and enable them to substantiate the LEED (Leadership in Energy and Environmental Design) Materials & Resources Credit 7 for certified wood, in which the intent is to encourage environmentally responsible forest management.

FSC certification is optional on many, but not all, OFS Brands' product lines. Please contact OFS Brands Customer Service for information in regards to which of our product lines are available as FSC certified, and what the necessary procedures are for ordering FSC certified products from OFS Brands.

OFS Brands' company-owned transportation company, Styline Logistics, is **SmartWay**-certified. SmartWay is one of U.S Environmental Protection Agency (EPA's) clean air programs that uses voluntary, rather than regulatory methods, to achieve air quality benefits. SmartWay's focus is in the transportation sector, and encompasses products and services associated with fuel-consuming engines.

The "**Premium Indiana Forest Products**" brand tells everyone that there is an abundant, sustainable supply of the finest Indiana hardwoods to meet consumer demand. It also tells them that Indiana's forests are well-managed, legally-harvested and environmentally responsible. The logo is reflective of the wood itself. Indiana hardwoods display a depth that defies imagination.

# Wood Finishes

## Matte Finishes

Matte finishes are standard on the collections listed below. If different specifications are required, contact your customer service representative for ordering instructions.

# Launch

## **veneer**

Exposed surfaces are number one select cherry, walnut, maple or oak veneers. Select straight and close grain patterns are used overall to maintain consistency between individual units.

## **worksurfaces**

Conference table tops are 1.1875" thick, supported with a 1" thick high-density subtop for a total thickness of 2.1875", profiled on all sides. Multi-piece tops are joined together with metal plates and wood screws. Credenza tops are .75" thick, profiled on user side only.

## **bases**

Bases attach to tops with support panels and wood screws. Only two bases are required for any table length due to support beams that run the entire length between bases. Support beams consist of composite wood material reinforced with steel, veneered and finished. Support beams ship with conference top. An optional center wire management column is offered for channeling wires from worksurface to floor in the center of the table.

## **accents**

Some Launch products are designed with 1.5" diameter half-tubular aluminum accents that coordinate with the overall design of the product. Veneers, granite, solid surface, and leather material options are available on worksurface ends and center inserts of conference tops. Veneers, granite, and solid surface material options are also available on credenza tops, hospitality cart undershelf, open display case top and lectern shelf.

## **work area**

Launch table design incorporates 27.1875" linear inches of work area per person for more comfortable conferencing. Seating capacity listed in item description is based on 27.1875". Tables can accommodate additional seating.

## **assembly**

Structural joints are secured with 16-gauge steel angle brackets and wood glue blocks. Tables include mounting brackets for electrical/data boxes. Failure to secure the electrical/data boxes to the table top will void warranty. Please see instruction manual on installation of conference tops. Adjustable levelers feature insert nuts to prevent glide tear out.

## **casegoods back panels**

Casegoods are intended for placement against a wall. Backs of credenzas and storage cabinets are unfinished and are inset 2" to allow for wire management.

## **file drawers**

All file drawers accommodate letter or legal filing. Filing hardware is finished in black to prevent corrosion.

## **drawer construction**

.4375" thick unidirectional plywood drawer sides and backs are assembled using rigid dowel construction. Drawers feature .25" thick drawer bottoms. Drawer interiors are sanded and finished.

## **drawer suspension**

High quality drawer suspensions carry a lifetime warranty. Box and file drawers are full extension. All suspension systems have a durable finish and feature positive and cushioned in/out stops and steel ball bearings to ensure a smooth ride.

## **finish**

The patented Euroluxe™ finish is a chemically re-engineered Urethane clear coat that preserves the beautiful depth and clarity of OFS' finishes, but allows for much greater performance with chemical and scratch resistance, as well as the complete elimination of dangerous formaldehyde emissions. The Euroluxe™ finish system achieves indoor air quality standards set by LEED and BIFMA furniture emission standards and allows all products to achieve GREENGUARD Indoor Air Quality Certification® by the GREENGUARD Environmental Institute.

SilverBan™ technology is an antimicrobial utilizing silver ions infused into the Euroluxe™ wood finish for antimicrobial protection on all exposed wood surfaces. SilverBan™ inhibits the growth of mold, mildew, fungus and bacteria on wood surfaces, as well as odors caused by bacterial growth, by 99.99%.

### Electrical/Data with Matching Wood Insert - Squirrel Tables Only

(EDB) Electrical/Data Boxes with Wood Center Insert to match Conference Top

# Launch

## Product Features Conference Tables

**LA-18956CT4 shown - see pages 17 - 24 for boat-shaped conference table selections.  
For squircle tables, see pages 26 - 28.**

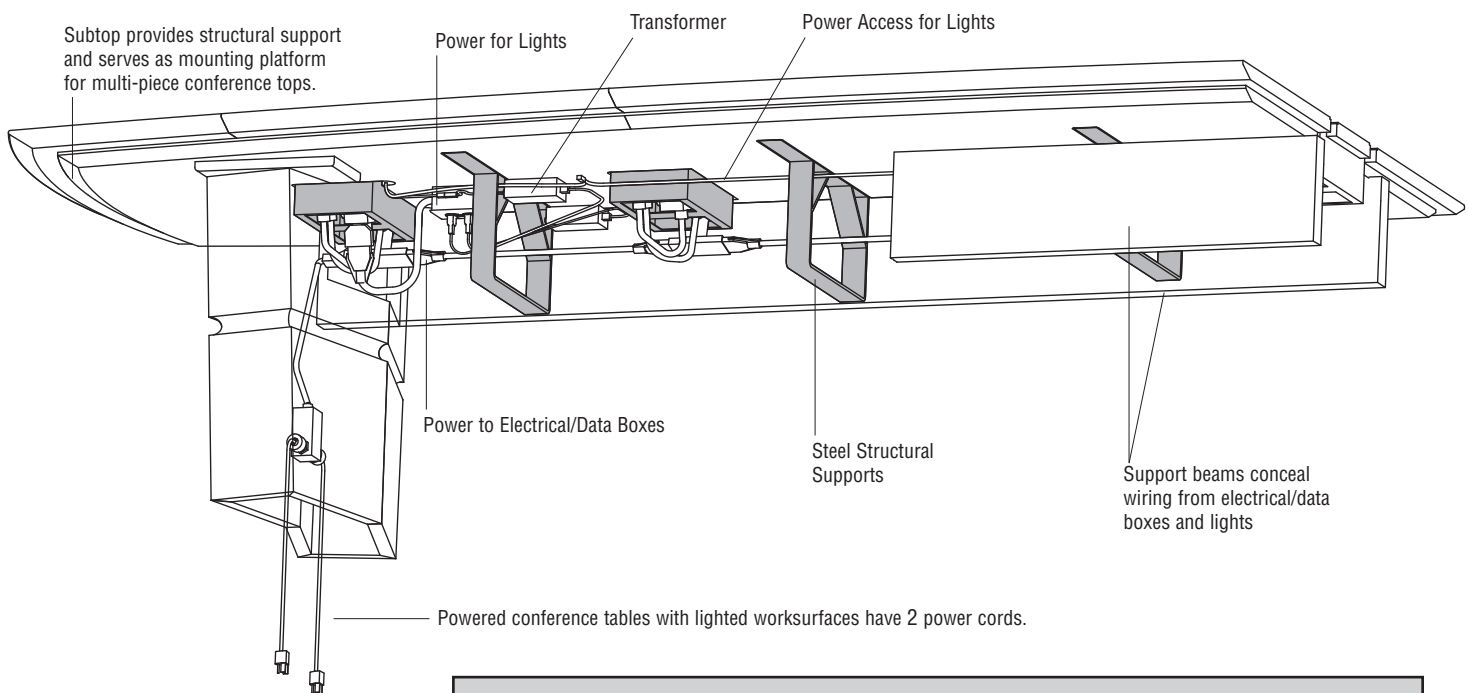

When specifying wood finishes on CT2 ends or CT3 ends and center, the wood finish specified must be different from the tabletop finish. For tables with the same finish, order CT1 tabletop.

# Launch

## Product Features Conference Tables

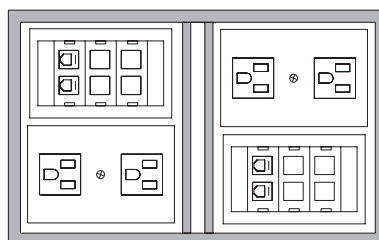

### Underside cutaway view of CT4 to show wiring

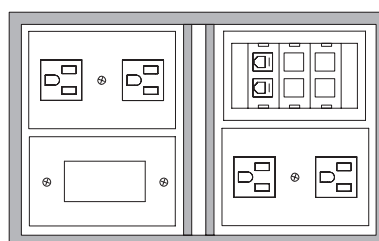

For optioned or standard electrical/data boxes, the supplied power includes 7' power cord with standard plug, handy box, and daisy chain connectors. A qualified electrician can easily convert the plug to hard wire in the field to meet City of Chicago requirements. No additional parts are needed.

Wiring and connectors for power are included in the price of the top when electrical/data boxes are specified. All electrical components, including the electrical/data boxes, ship in a separate carton. Installation sheets provide specific instructions on how to route power.

Placement of the electrical/data boxes is standard as shown in the line art on pages 17-27. To modify the number of boxes and/or location, see page 15.

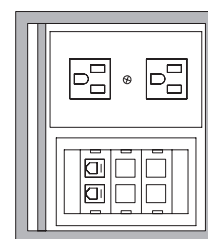

**2 ELECTRIC OUTLETS, 2 RJ-45  
CONNECTORS AND 4 BLANKS PER SIDE**

**FOR CT4 LIGHTED CONFERENCE TOP, LIGHT  
SWITCH REPLACES 1 DATA FACEPLATE IN END BOX**

**DOUBLE ELECTRICAL/DATA BOX  
FOR BOAT-SHAPED CONFERENCE TOPS**

See page 58 for additional Leviton electrical/data inserts available from OFS. Any Leviton modules and most NEMA approved modules can be field installed to meet your needs. Contact your local AV contractor for your specific requirements.

**2 ELECTRIC OUTLETS, 2 RJ-45  
CONNECTORS AND 4 BLANKS**

**SINGLE ELECTRICAL/DATA BOX  
FOR SQUIRICLE CONFERENCE TOPS**

# Launch

## Electrical/Data Kits for CT1 and CT2 Conference Tops

Electrical/data boxes are preconfigured as shown in the drawings on pages 17-20. However, CT1 and CT2 conference tops can be ordered as a special, with electrical/data boxes inserted at any specified location. **Note:** Due to the insert options and lighted surfaces, the CT3 and CT4 conference tops cannot be modified. A detailed drawing must accompany your purchase order. Some constraints/restrictions may apply. Please contact Customer Service for additional information or email [specials\\_costing@ofsbrands.com](mailto:specials_costing@ofsbrands.com) for a quote.

**Electrical/data kits** include electrical/data boxes, handy box with 2 power cords, and daisy chain connectors to connect the power from handy box to the first electrical/data box and between the electrical/data boxes at 27.1875" intervals. A qualified electrician can easily convert the plugs to hard wire in the field to meet City of Chicago requirements. No additional parts are needed for hardwiring.

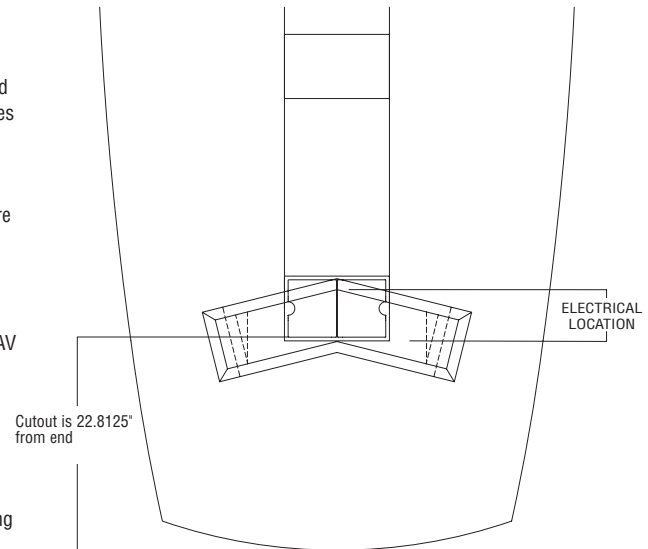

Please make note that one electrical/data box or the first box in a daisy chain must be placed a minimum of 22.8125" from the end. Boxes placed exactly 22.8125" from the end allow wires to be routed directly through the base to the power outlet in the floor for optimum wire management (see illustration at right).

Kits are configured based on a distance of 27.1875" between boxes. If boxes are placed more than 3' apart or if the first box is located further than 22.8125" from the end, additional LA-PW daisy chain connectors will be needed. Each LA-PW daisy chain connector extension is 3' L.

In cases where the number of daisy chain connectors required is not compliant with local code, wiring can be routed between the electrical/data boxes. OFS will work with your own AV contractor to develop wiring solutions that are in compliance.

**Please contact your Customer Service Rep or email [special\\_costing@ofsbrands.com](mailto:special_costing@ofsbrands.com) for orders requiring the use of electrical/data kits. A detailed drawing must accompany the purchase order.**

**Note:** Electric codes may vary from location to location. Customer is responsible for ensuring compliance with local electrical codes.

### INDIVIDUAL COMPONENT PRICING

unit	single box w/ 10' cord	double box w/ 10' cord	plug & play 10' patch cord	3' daisy chain
each	LA-PDS \$1,448 LIST	LA-PBD \$1,814 LIST	LA-PC \$226 LIST	LA-PW \$293 LIST

### DOUBLE BOX DAISY-CHAIN KITS

unit	double box kits
2 boxes in kit	LA-PDK2D \$4,519 LIST
3 boxes in kit	LA-PDK3D \$6,778 LIST
4 boxes in kit	LA-PDK4D \$9,050 LIST
5 boxes in kit	LA-PDK5D \$11,006 LIST
6 boxes in kit	LA-PDK6D \$13,258 LIST
7 boxes in kit	LA-PDK7D \$15,357 LIST
8 boxes in kit	LA-PDK8D \$17,579 LIST

Prices include conference top modification.

Order 1 LA-PC plug and play 10' patch cord for each RJ-45 connection part.

Each kit includes 1 daisy chain connector between handy box and the first electrical/ data box and 1 daisy chain connector between each pair of electrical/data boxes. Order additional LA-PW daisy chain connectors when boxes are placed over 3' apart.

**Note:** If worksurface end options are ordered in the same finish as the table top, the top will be a three piece top with center inserts and not as shown in line drawing.

**Note:** Wood ends and center inserts on CT3 table tops are for the option of specifying a different wood finish or material than the rest of the table top. If both worksurface end and center insert options are the same finish as the table top, order CT1 table top with optional electrical/data boxes. If worksurface end options are different but center insert options are the same finish as the table top, order CT2 table top with optional electrical/data boxes.

**Note:** Item weights are based on wood tops. Weights will increase by weight of options specified (see pg. 59). See page 25 for coordinating bases and wire management columns. See page 58 for optional electrical/data inserts.

# Meeting Room

## **veneer**

Exposed surfaces are number one select cherry, walnut, maple or oak veneers. Optional sketch face veneer patterns are available on some conference table tops. Select straight and quarter grain patterns are used overall to maintain consistency between individual units. Contour and CT5 edge profile tops are number one select cherry or maple veneers.

## **tops**

Conference tops utilize 5-ply construction with mitered corners. High pressure laminate tops are 3-ply construction with .050 thickness for high impact resistance. Tables are profiled on all sides. Two-piece conference tops are joined together with wooden dowels. Under-top mending plates and butterfly bolts ensure permanent connection.

3mm edges on 1.1875" thick tops utilize 3-ply construction with externally banded hardwood.

Launch edge profile and Contour edge profile tops are 1.1875" thick utilizing 3-ply construction.

CT5 edge profile tops are 1.5" thick utilizing 5-ply construction.

## **bases**

Bases are attached to tops using support panels and wood screws. Wire access doors for cylinder bases are 2" from the bottom. See pages 98-116 for base options.

## **assembly**

Structural joints are secured by 16-gauge steel angle brackets and wood glue blocks. Adjustable levelers feature insert nuts to prevent glide tear out.

## **finish**

The patented Euroluxe™ finish is a chemically re-engineered Urethane clear coat that preserves the beautiful depth and clarity of OFS' finishes, but allows for much greater performance with chemical and scratch resistance, as well as the complete elimination of dangerous formaldehyde emissions. The Euroluxe™ finish system achieves indoor air quality standards set by LEED and BIFMA furniture emission standards and allows all products to achieve GREENGUARD Indoor Air Quality Certification® by the GREENGUARD Environmental Institute.

SilverBan™ technology is an antimicrobial utilizing silver ions infused into the Euroluxe™ wood finish for antimicrobial protection on all exposed wood surfaces. SilverBan™ inhibits the growth of mold, mildew, fungus and bacteria on wood surfaces, as well as odors caused by bacterial growth, by 99.99%.

# Meeting Room

Our conference offering includes numerous base choices to complement our tops. For easy selection of bases we have compiled this quick reference guide of compatible bases with tops. After base is selected see pages 104-116 for specifications and ordering.

## base options for round and square tops

**Note:** All round and square conference tops require additional weight in the base when using cylinder bases to prevent the table from tipping over. OFS provides instruction sheets and clear 6ml bags with base. Customer must provide dry sand for the additional weight.

# Meeting Room

Our conference offering includes numerous base choices to complement our tops. For easy selection of bases we have compiled this quick reference guide of compatible bases with tops. After base is selected see pages 104-116 for specifications and ordering.

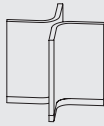

## **base options for round and square tops**

**Note:** All round and square conference tops require additional weight in the base when using cylinder bases to prevent the table from tipping over. OFS provides instruction sheets and clear 6ml bags with base. Customer must provide dry sand for the additional weight.

## Power Cutout Locations

To order, add location codes to model number.

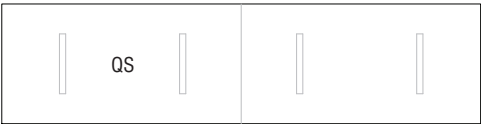

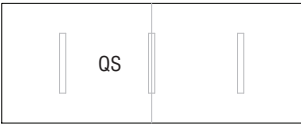

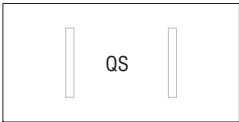

Example  
CT1-36-4G | MHM | EH | QV  
Model Number Finish Edge Power Cutout

### NO CUTOUT

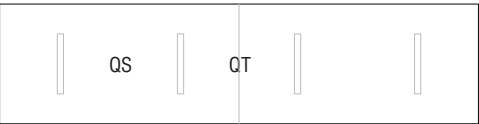

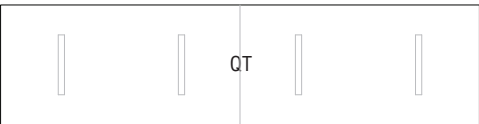

QR No cutout

### POWER CUTOUTS BETWEEN BASES

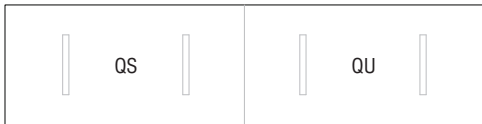

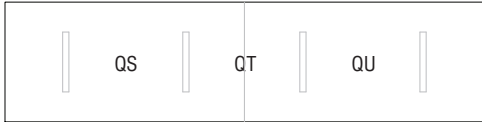

QS Between 1st base and 2nd base

QT Between 2nd base and 3rd base

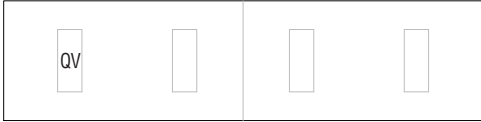

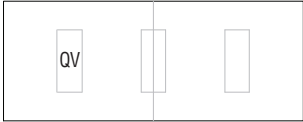

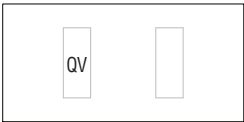

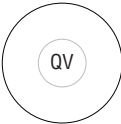

QU Between 3rd base and 4th base

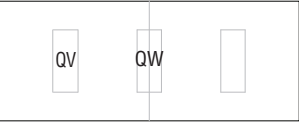

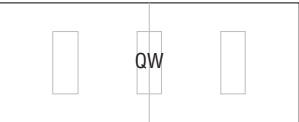

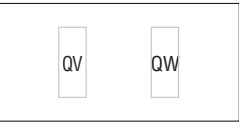

### POWER CUTOUTS OVER BASES

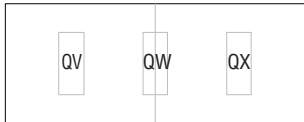

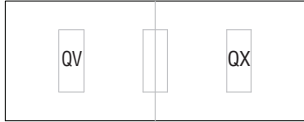

QV Over 1st base

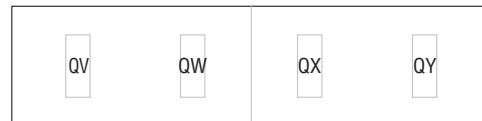

QW Over 2nd base

QX Over 3rd base

QY Over 4th base

# Meeting Room

## Power Supply and Base Matrix

The Power Supplies pages 121-124 can be used centered over select bases or between bases.  
When ordering power supply **centered over base(s)**, refer to matrix for applicability.

**Y** = Can use standard base

**M** = Base must be a modification

**X** = Not Applicable – PS will not work over base

\*PS-10 will fit over these bases if the Power Supply is “open to long side of table” only. The corresponding top would need to be detailed noting “the power supply to open to the long side”.

\*PS-9, PS-12 and the PS-25 will fit over this base if the Power Supply is rotated. Both the base and the corresponding top will need to be modified - the base to accept power supply and the top to have the cutout rotated.

# Meeting Room

## **veneer**

Exposed surfaces are number one select cherry, walnut, maple, or oak veneers. Select straight and quarter grain patterns are used overall to maintain consistency between individual units.

## **tops**

Casegoods tops are 1.1875" thick. Conference wall components tops are profiled on front side only. Freestanding conference casegoods tops are profiled 3 sides. High pressure laminate tops are available on credenzas and mobile carts.

## **assembly**

Structural joints are secured by 16-gauge steel angle brackets and wood glue blocks. Adjustable levelers feature insert nuts to prevent glide tear out.

## **finish**

The patented Euroluxe™ finish is a chemically re-engineered Urethane clear coat that preserves the beautiful depth and clarity of OFS' finishes, but allows for much greater performance with chemical and scratch resistance, as well as the complete elimination of dangerous formaldehyde emissions. The Euroluxe™ finish system achieves indoor air quality standards set by LEED and BIFMA furniture emission standards and allows all products to achieve GREENGUARD Indoor Air Quality Certification® by the GREENGUARD Environmental Institute.

SilverBan™ technology is an antimicrobial utilizing silver ions infused into the Euroluxe™ wood finish for antimicrobial protection on all exposed wood surfaces. SilverBan™ inhibits the growth of mold, mildew, fungus and bacteria on wood surfaces, as well as odors caused by bacterial growth, by 99.99%.

## 24" d VCR Cabinet

**model**

MR-3724VCR

***description***

**W**

**d**

## ***h***

***list***

**\$ 4,450**

A line drawing of a tall, narrow cabinet. It has two doors on the upper half, each with a vertical handle. Below the doors are two drawers, each with a horizontal handle. The cabinet is shown from a three-quarter perspective.

A line drawing of a tall, narrow cabinet with two doors. Both doors are open, revealing the interior. The interior features a small shelf near the top and two drawers at the bottom. The drawers have small handles. The cabinet is shown from a three-quarter perspective.

• shaped front side	37.25	24	72
Upper Cabinet	weight (lbs.)	222	
• VCR shelf -	cubic ft.	43	
inside dimensions:	w/ EG edge	24.75	deep
26.5w x 18d x 5.75h	w/ EV edge	25	deep
• wood pocket doors			
• vented back standard			
inside dimensions: 33w x 21.375d x 36.8125h			
Lower Cabinet			
• 1 adjustable wood shelf			
• hinged doors			
• 6 outlet power supply with surge suppressor - UL listed

## HOW TO SPECIFY

Tables are available in multiple materials and options to meet your needs. To specify, follow these easy steps.

### FOR TABLES

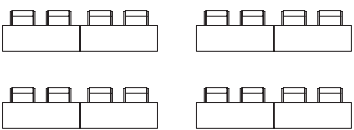

1. Decide on a configuration based on how the room is to be used. Next check seating capacity; for other seating capacity requirements, select a different configuration or combinations that will give you the seating space you need.
2. Table Placement Guidelines:
  - 24" - 30" per person
  - 48" for aisles and from side walls
  - 96" - 120" for presenter between front wall and first row
  - 48" between rows
  - 84" from back wall
  - 72" between round or square tables
3. ADA Guidelines:
  - 30" - 36" per wheelchair table space
  - 24" minimum table depth
  - 60" - 72" between rows where wheelchairs may be placed back-to-back
  - 36" minimum for wheelchair single passage
  - 60" minimum for wheelchair double passage
  - 60" minimum diameter to turn wheelchair
  - 29" height will accommodate newer wheelchairs; however, some wheelchairs require 32" height.
4. Determine the top shapes and sizes as well as the number of tops to fit the table configuration you selected into your floor space.
5. Select top material and edge style:
  - Wilsonart standard HPL and OFS Wood Grain Laminates top with 3mm PVC edge - solid color
  - Wilsonart standard HPL and OFS Wood Grain Laminates top with self edge
  - Wilsonart standard HPL top with bullnose T-mold edge
  - Quarter grain veneer or HPL top with 3mm wood edge
  - Wilsonart standard HPL top with urethane edge
  - Quarter grain veneer or HPL top with internal lumber banded edge
  - HPL non-wood grain laminate top with external lumber banded edge
6. See product pages for finish, color, and material selections available on tops, edges, and modesty panels; for Wilsonart standard pattern laminates see page 158. Select options where applicable for:
  - Surface
  - Edge
  - Modesty Insert
  - Grommets for Wire Management
  - Power Cutouts for Power/Data Center
  - Grommet Color
  - Connector Brackets

### FOR ELECTRIC CAPABILITIES

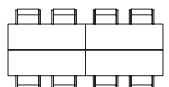

Use of technology is an integral part of most training rooms. OFS offers single circuit and multi circuit electrical solutions to meet these needs. See Power and Data pages 182 - 188. Need some help? Trained staff is on hand to assist you. Contact your CSR at 1-800-521-5381.

### FINISHES

The patented Euroluxe™ finish is a chemically re-engineered Urethane clear coat that preserves the beautiful depth and clarity of OFS' finishes, but allows for much greater performance with chemical and scratch resistance, as well as the complete elimination of dangerous formaldehyde emissions. The Euroluxe™ finish system achieves indoor air quality standards set by LEED and BIFMA furniture emission standards and allows all products to achieve GREENGUARD Indoor Air Quality Certification® by the GREENGUARD Environmental Institute.

SilverBan™ technology is an antimicrobial utilizing silver ions infused into the Euroluxe™ wood finish for antimicrobial protection on all exposed wood surfaces. SilverBan™ inhibits the growth of mold, mildew, fungus and bacteria on wood surfaces, as well as odors caused by bacterial growth, by 99.99%.

#### Finish Options:

##### Veneer

MCC - Crescent Cherry	MNW - Natural Walnut (Quartered)
MFC - Formal Mahogany/Cherry	MSW - Sable/Walnut
MGC - Grand Cherry	MVW - Vintage Mahogany/Walnut
MLC - Light Cherry	MHM - Honey Maple
MNC - Natural Cherry	MLM - Light Maple
MSC - Sable/Cherry	MNM - Natural Maple
MVC - Vintage Mahogany/Cherry	MCO - Chestnut Oak (Quartered)
MAW - American Walnut	MRO - Clear Oak (Quartered)
MGW - English Walnut (Quartered)	MSO - Espresso Oak (Quartered)
MEW - Executive Walnut	MUO - European Oak (Quartered)
MFW - Formal Mahogany/Walnut	MGO - Steel Grey Oak (Quartered)
MLW - Legacy Walnut	

##### OFS Wood Grain Laminate

MFP - Formal Mahogany/Cherry with HPL Worksurface
CHP - Light Cherry with HPL Worksurface
VCP - Vintage Mahogany/Cherry with HPL Worksurface
LMP - Light Maple with HPL Worksurface
MEP - English Walnut with HPL Worksurface
EWP - Executive Walnut with HPL Worksurface
NWP - Natural Walnut with HPL Worksurface
VMP - Vintage Mahogany/Walnut with HPL Worksurface
STP - Steel Grey/Oak with HPL Worksurface

**STANDARD WILSONART HPL**

www.wilsonart.com

Wilsonart -60 and -38 matte texture standard pattern High Pressure Laminates (HPL) are available at standard list prices. Lead times may be extended depending on supplier's availability. Custom laminates can be ordered at an upcharge with extended lead times. Please contact your CSR for a price quotation and availability.

GROMMETS

Grommets are located on approach side of tops. Grommet color option must be specified; available in black or silver. See top specification page for upcharge.

- 60" and 72" Rectangular tops are available with Right (G2), Center (G3), Left (G4), Right-Left (G5), or Right-Center-Left (G8) grommet options.
- 48" Rectangular tops are available with Center (G3) option only.

Overall size 3.375" x 2"  
Grommet cutout size 3.25" x 1.875"  
Location to center of grommet 6.75" from approach edge  
For left and right grommets For 72"W top, 18" from ends  
For 60"W top, 15" from ends  
For center grommet Centered between ends

G1 No Grommet

G2 Grommet on Right

G3 Grommet in Center

G4 Grommet on Left

G5 Grommets Right and Left

G8 Grommets Right, Center, and Left

Specify grommet color option:

- G1 No Grommet  
LJ Black  
LK Silver

POWER CUTOUT OPTIONS

Power cutouts are located on approach side of tops. Power cutout option is for cutout opening only (no upcharge). Power/Data Center(s) must be ordered separately for field installation, see pages 182 and 186. For single circuit or multi circuit applications, see page 161.

- 60" and 72" Rectangular tops are available with Center (A4R), or Right-Left (A4T) power cutout options.
- 48" Rectangular tops are available with Center (A4R) option only.

Power cutout size 5.9375" x 2.75"  
Location to center of cutout 6.75" from approach edge  
For left and right cutouts For 72"W top, 18" from ends  
For 60"W top, 15" from ends  
For center cutout Centered between ends

G1 No Power Cutout

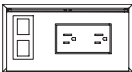

A4R Power Cutout in Center

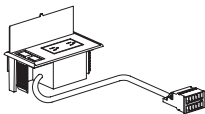

A4T Power Cutouts Right and Left

Power/Data Center - order separately (see pages 182 and 186)

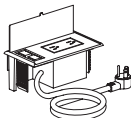

Each Power/Data Center contains 1 Duplex Power Outlet and 2 blank data port inserts. For A4R option, order one (1) Power/Data Center. For A4T option, order two (2) Power/Data Centers. Voice and data inserts can be ordered to replace preinstalled blanks in the field. See page 188.

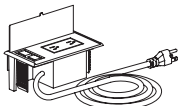

Perimeter Single Circuit

- PS-26 (Black) 1' cord with Perimeter plug  
PS-27 (Silver) Use with Perimeter Single Circuit System for up to 8 power/data centers, 40' maximum length, using single circuit power in-feed and jumpers (see pages 162 and 163).

4-Trac Multi Circuit

- PS-30 (Black) 2' cord with a 90° 15 amp plug  
PS-31 (Silver) Use with 4-Trac Multi Circuit System if power in the top of the worksurface is required. The 2' cord plugs into the multi circuit duplex power modules on the undersurface side of the top (see pages 164 and 165).

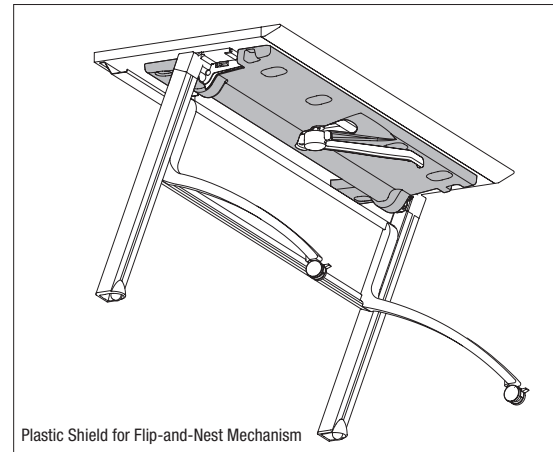

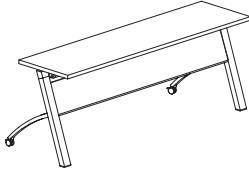

Stand Alone

- PS-28 (Black) 10' cord with straight 15 amp plug  
PS-29 (Silver) Plugs directly into 15 amp wall or floor outlet. For single use, not for ganging.

## BASE AND MODESTY PANEL CONSTRUCTION

- Table height with top 30" - factory installed
- Metallic powder coated frame
- Integrated modesty panel with material options to coordinate or contrast with top material
- Integrated top-to-bottom cable management on inside front legs
- Flip-and-Nest mechanism with single-handed lever
- Plastic shield covers flip-and-nest mechanism for safety of user
- Concealed front casters are field-installed
- Fully-exposed locking casters on back legs

## POWER AND DATA

### Planning Guidelines

- Step 1 The Room:
- How will the room be used and will it be reconfigured?
  - How will the tables be configured?
  - Where are the room's power sources located?
- Step 2 Electrical Equipment:
- What electrical equipment will be used now and for future needs?
  - Where will the electrical equipment be located?
- Step 3 Calculate Amps:
- Determine AMPs usage - usually listed on the name plate on the back or bottom of the equipment; may also be found in the user manual.
  - Calculate the total number of AMPs needed and divide that total by 16 to determine the number of circuits needed. If number of circuits is a decimal, round up to the nearest whole number.
- Step 4 Select the Electrical System:
- If AMPs total 12 or fewer, **Perimeter single circuit system** can be used.
  - If AMPs total 16 or fewer, **4-Trac multi circuit system with 20 amp Plug In-feed** can be used if city code does not require hardwire power in-feed.
  - For **4-Trac multi circuit system with Hardwire Power In-feed or Rotating Power Entry with Quick Disconnect**, determine the number of circuits needed based on the configuration, power source locations, and equipment location. Our 4-wire, 2-circuit system gives customers the ability to "right-size" their electrical, paying only for the material that is being used.
  - Also available from OFS is an 8-wire, 4-circuit system. Circuits 1, 2, and 3 share a common ground; Circuit 4 has a separate ground and neutral wire and is used for more sensitive equipment needs, such as projectors, printers and servers. For information, please contact your CSR.

**Always consult with a local authority for compliance with specific code regulations.**

### Electrical Systems

#### Perimeter single circuit system

- Plug-and-play with easy reconfigurability
- Single circuit system
- (1) 15 amp circuit
- 12 amp total system rating
- Self-diagnostic system status
- Economical
- Cannot be used where city code requires hardwire power in-feed

#### 4-Trac multi circuit system

- 4-wire, 2-circuit system
- Permanent hardwire in-feed with the flexibility of rotating power entry in-feed or 20 amp plug in-feed (20 amp plug in-feed brings system down to 1 circuit)
- (2) 20 amp circuits; (with 20 amp plug - (1) 20 amp circuit)
- 16 amps per circuit, 32 per system is maximum allowed for a continuous load
- Standard underworksurface (2) duplex receptacles - 4 outlets per table
- Metal conduit option for New York, San Francisco, and anywhere it is required by local code

#### Stand-alone power/data center

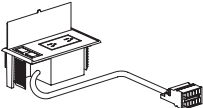

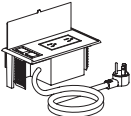

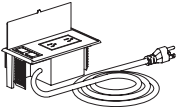

- Use in single table applications such as a presenter table

POWER TAPS

Power/Data Center

The Power/Data Center is UL Recognized, and designated models can be used in single circuit, multi circuit, or stand-alone applications. Cord length and plug type are specific to the application, and **power/data centers are not interchangeable between applications**. Power/Data Centers are ordered separately from the table. Table must be specified with power cutout(s) for field installation of the power/data center(s) - see page 159.

The Power/Data Center measures 6.375"W x 3.375"D x 2.75"H. Each Power/Data Center contains 1 duplex power tap (2 - 15 amp outlets) and 2 blank data port inserts. Voice and data RJ-45 modules can be ordered to replace preinstalled blanks in the field. The Power/Data Center fits into a cutout in the table top. Self-storing lid retracts inside the unit during use. Available in black and silver.

	<p><b><u>Perimeter Single Circuit</u></b></p> <p><b>PS-26</b> (Black) 1' cord with Perimeter plug</p> <p><b>PS-27</b> (Silver) Use up to 8 units where minimal connectivity to building power supply is required. The Power/Data Centers are an integral component of the single circuit system.</p>
	<p><b><u>4-Trac Multi Circuit</u></b></p> <p><b>PS-30</b> (Black) 2' cord with a 90° 15 amp plug</p> <p><b>PS-31</b> (Silver) Use up to 13 duplex receptacles per circuit where multi circuit connectivity is required. The Power/Data Centers are an add-on option to bring power to the worksurface.</p>
	<p><b><u>Stand Alone</u></b></p> <p><b>PS-28</b> (Black) 10' cord with straight 15 amp plug</p> <p><b>PS-29</b> (Silver) Use for single table for mobility and often-reconfigured tables. The Power/Data Center is a stand alone unit to bring power to the worksurface.</p>
	<p><b><u>RJ-45 Module</u></b></p> <p><b>5G108RE5</b> Black single CAT5E module</p>
	<p><b><u>RJ-45 Module</u></b></p> <p><b>U1KEY345-BK</b> Black single CAT3 module</p>

Mini Adapt Undersurface Power (Single Circuit Applications Only)

PS-20 Mini Adapt is 3.75"W x 3"D x 2"H and consists of 1 undersurface duplex power tap (2 - 15 amp outlets) with Perimeter plug; can be used only in Perimeter Single Circuit applications.

	<p><b><u>Perimeter Single Circuit</u></b></p> <p><b>PS-20</b> (Black) 1' cord with Perimeter plug</p> <p>Use up to 8 units where minimal connectivity to building power supply is required. The Mini Adapt Undersurface Power unit can be used as an alternative to the Power/Data centers in a single circuit system for power underneath the worksurface.</p>
---	---

PERIMETER SINGLE CIRCUIT SYSTEM

THE COMPLETE ELECTRICAL PACKAGE

Today's conference, learning, and teaming environments demand more furniture flexibility and reconfiguration that is fast and easy. OFS can deliver total "plug-n-play" ease for unlimited power reconfigurations without a service call. Perimeter is a UL 962 recognized electrical system that offers true flexibility and simplicity in reconfiguration of training work space. A safe, reliable, and innovative electrical solution, Perimeter is a single circuit configuration of up to 8 duplex outlets with a standard 15 amp plug and offers total reconfigurability.

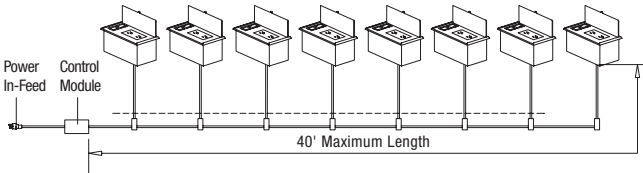

PERIMETER OVERVIEW

OFS utilizes the Perimeter electrical system allowing up to 8 duplex power outlet modules to be daisy-chained together and powered from a single power in-feed with standard 15-amp plug. This system uses patented technology that allows power modules to be connected in any order without the need for sequential keying. The number of power modules connected is automatically limited to the maximum allowed under UL Standard 962. If too many power modules are connected, the control module disconnects all power to the system and illuminates a red diagnostic LED. Power is restored to the system automatically after the extra power module or modules are disconnected, which is indicated by a green diagnostic LED.

Power/Data Center with 1' cord and PERIMETER plug.

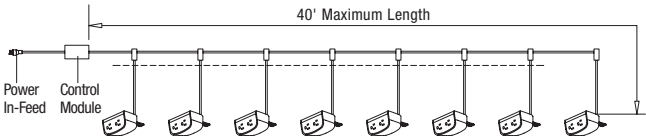

PS-26 (Black)

PS-27 (Silver)

Mini Adapt Undersurface Power with 1' cord and PERIMETER plug.

PS-20 (Black)

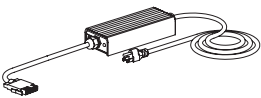

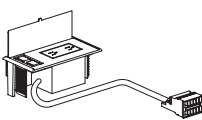

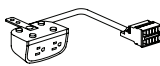

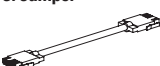

TRAINING TABLE APPLICATIONS

This system is typically applied to training tables where multiple power outlets are desired to be supplied by one power cord. It is especially valuable in applications where the setup or configuration may change. Its patented technology allows power modules (Power/Data Center or Mini Adapt Undersurface Power) to be connected or reconnected in any order at any time. All power modules offer 3 connection ports for unmatched flexibility in how power modules and the furniture they are mounted to may be arranged or rearranged.

SYSTEM COMPONENTS

Only 3 component types are needed to create the electrical system:

<p><b>1. Power In-Feed</b></p>  <p><b>PWF3</b> with Transformer on perimeter connector plug end</p> <p>Transformer with 15' cord can be mounted under table top with approximately 13' of cord length between transformer and power outlet plug.</p>	
<p><b>2. Power/Data Center</b></p> 	<p><b>and/or</b></p> <p><b>Mini Adapt Undersurface Power</b></p> 
<p><b>3. Jumper</b></p> 	

TECHNICAL INFORMATION

- Single circuit power
- 12 amp total system rating
- 15 amp power in-feed cord - 10'
- Over-current protection
- Up to 8 duplex devices
- 2 ft. maximum unsupported cable
- Connector brackets required between tables
- Perimeter system by itself is UL Recognized
- 40 ft. maximum length from control module to last power/data center

CONNECTIVITY

Maximum number of tables with 1 power/data center per table

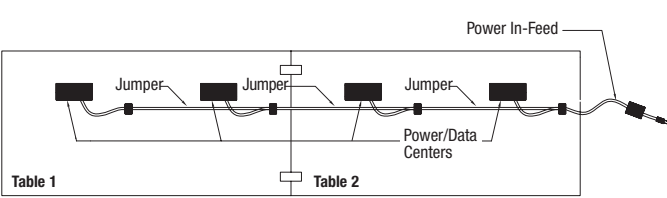

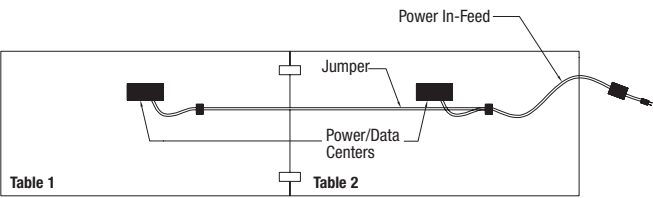

- (8) 48"W or 60"W tables
- (6) 72"W tables

Maximum number of tables with 2 power/data center per table (not available on 48"W tables)

- (4) 60"W tables
- (4) 72"W tables

PERIMETER JUMPER LENGTHS

When using the Perimeter system, the specifier must determine jumper lengths that must be ordered to fit the configuration. See chart below. For assistance, please contact your CSR.

With 1 Power/Data Center Per Table Between:

Connecting	Jumper Length
(2) 48" Rectangles	48"
(2) 60" Rectangles	60"
(2) 72" Rectangles	72"
48" Rectangle - Wedge - 48" Rectangle	60"
60" Rectangle - Wedge - 60" Rectangle	72"
72" Rectangle - Wedge - 72" Rectangle	84"
48" Rectangle - Quarter Round - 48" Rectangle	60"
60" Rectangle - Quarter Round - 60" Rectangle	72"
72" Rectangle - Quarter Round - 72" Rectangle	84"

With 2 Power/Data Centers Per 60" or 72" Rectangular Table Between:

Connecting	Jumper Length
(1) 60" Rectangle between Power/Data Centers	30"
(1) 72" Rectangle between Power/Data Centers	36"
(2) 60" Rectangles	30"
(2) 72" Rectangles	36"
60" Rectangle - Wedge - 60" Rectangle	42"
72" Rectangle - Wedge - 72" Rectangle	48"
60" Rectangle - Quarter Round - 60" Rectangle	42"
72" Rectangle - Quarter Round - 72" Rectangle	48"

CONNECTOR BRACKETS

When jumpers are used to connect power from table to table, connector brackets must be used to prevent separation and damage to electrical system. Specify A4W Set of 2 Connecting Brackets option with each table. See TABLE CONNECTOR BRACKETS OPTION on page 166.

## 4-TRAC MULTI CIRCUIT SYSTEM

ONS's 4-Trac Multi Circuit System accommodates typical power needs in a training environment. Powered tables must be joined with Connector Brackets to prevent separation and damage to electrical components. Some city codes require hardwire power in-feed. Metal conduit is required for New York and San Francisco. Consult with a local authority for compliance with specific code regulations.

For your particular electrical requirements, OFS has trained staff available to help with your power/data specifications. Please provide:

- permanent or reconfigurable installation needs
- room layout drawing showing tables, locations for power in the tables, and the building's power sources

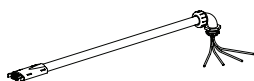

All components of the 4-Trac Multi Circuit System are UL listed with the exception of the 20 Amp Power Entry with 90° Plug, which is UL recognized.

## SYSTEM COMPONENTS

### 1. Power In-Feed

OFS offers 3 types of power in-feeds. Determine the type you need based on need for reconfigurability, the building's available power sources, and local electrical codes.

#### 4-Trac Hardwire Power Entry with 6' Cord

- Installed at the wall or floor by a licensed electrician.
- Modular end connects to duplex receptacle kit
- 20 amp, 2-circuit system
- No connection sequence required
- UL listed

## PWF-2L

### Power In-Feed with Black Liquid Tight Conduit

**PWF-2M**

### Power In-Feed with Metal Conduit

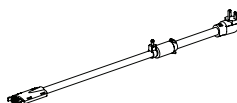

### 4-Trac Rotating Power Entry with Quick Disconnect

- Replaces an existing wall outlet; installed by licensed electrician
- 72" jumper connects from the Rotating Power Entry to duplex receptacle kit (order separately: MCJ72L with Liquid Tight Conduit or MCJ72M with Metal Conduit)
- 20 amp, 2-circuit system
- No connection sequence required
- UL listed

## PWF-20D

### 20 Amp Power Entry with 6' Cord and 90° Right Angle Plug

- Plugs into standard 20 amp wall outlet
- Modular end connects to duplex receptacle kit
- Limits system to single circuit only
- 20 amp, 1-circuit system
- All kits in series must be Circuit I
- No connection sequence required
- UL recognized

**PWF-20AMP**

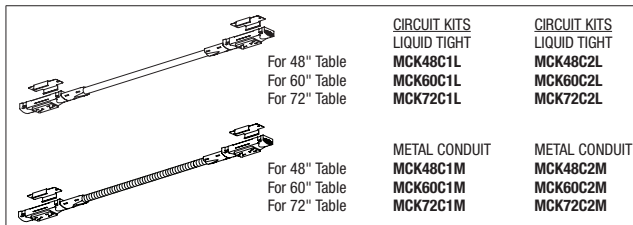

### H Block Connector

**HCB**

Some configurations and building power supply locations may require bringing power to the table in a location other than the ends. The UL listed H block connector, model number HCB, enables connection at your desired location. Jumper lengths will depend on the application; some lengths may require jumper to be coiled underneath the worksurface so that the modular end can be inserted into the H block connector.

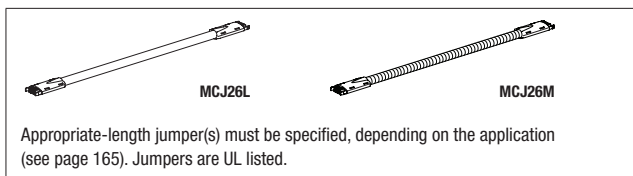

## 2. Duplex Receptacle Kits

The 4-Trac Multi Circuit System is available in kits (duplex receptacle-jumper-duplex receptacle) to simplify electrical specification. Multi Circuit Kits are UL listed. Each kit contains either Circuit I or Circuit II duplex receptacles. Alternating Circuit I and Circuit II kits from table-to-table will prevent accidental overload of any one circuit. Specify an equal number of Circuit I and Circuit II kits and use them alternately between tables that are connected to the same power in-feed.

CIRCUIT I KIT	CIRCUIT II KIT	CIRCUIT I KIT	CIRCUIT II KIT
Table 1	Table 2	Table 3	Table 4

### 3. Jumper

## STANDARD FEATURES

- 4-wires, 2 circuits, 20 amps each (Circuit I and II only)
- 13 - duplex receptacles per circuit, 26 - 15 amp duplex receptacles per power in-feed maximum
- Easy to specify
- Easy to install and reconfigure
- UL Listed as a Manufactured Wiring System
- More economical than 8-wire system

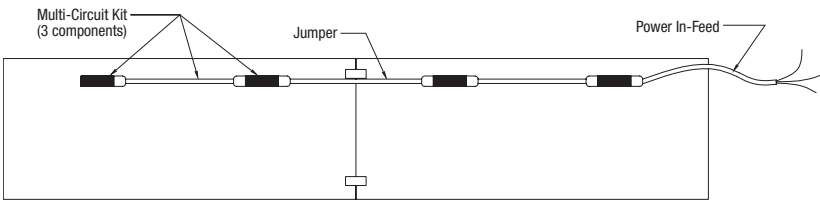

## CONNECTIVITY

Most computing is done via laptops; total amps should not exceed 16 amps per circuit. In a training environment utilizing computer towers and monitors, the 4-wire, 2-circuit system supports 4 computers per circuit. If 2 computers are used per 72" table, the 4-wire, 2-circuit system supports power for 24 linear feet of worksurface or 4 tables. Other electrical needs, such as a projector, are generally few and can be accommodated by the 4-wire, 2-circuit system.

- Length limitation for jumpers and in-feeds: 300" or 25'
- Maximum duplex receptacles allowed: (13) duplex receptacles per circuit, (26) per in-feed
- Recommendations: (10) duplex receptacles per circuit, (20) per in-feed, or (4) computer towers and monitors per circuit, (8) computer towers and monitors per in-feed

4-TRAC MULTI CIRCUIT JUMPER LENGTHS

When using the 4-TracMulti Circuit system, the specifier must determine jumper lengths that must be ordered to fit the configuration. See chart below. For assistance, please contact your CSR.

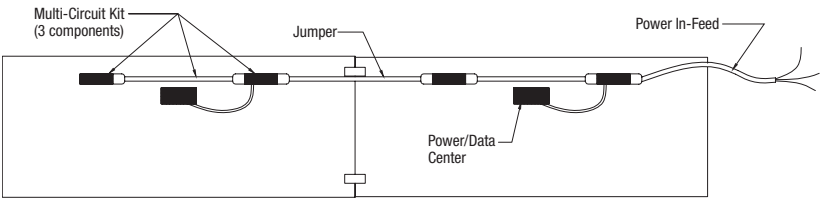

Connecting	Jumper Length
Rectangle - Rectangle end-to-end	26"
Rectangle - Rectangle back-to-back	26"
Rectangle - 18° Wedge - Rectangle	30"
Rectangle - 30° Wedge - Rectangle	31"
Rectangle - 45° Wedge - Rectangle	33"
Rectangle - 60° Wedge - Rectangle	35"
Rectangle - Quarter Round - Rectangle	31"

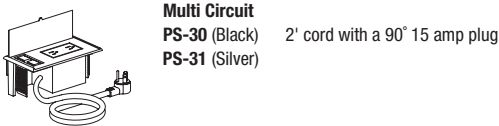

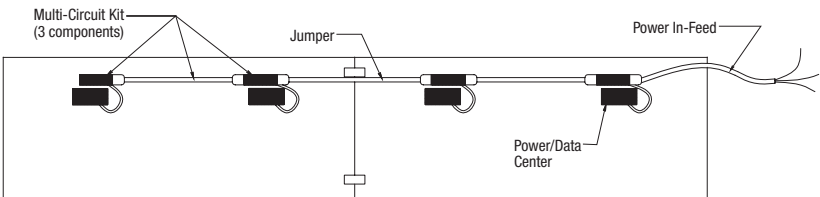

USING POWER/DATA CENTERS IN MULTI CIRCUIT SYSTEM

Power/Data Centers can be used in the multi circuit system to bring power to the worksurface. Each Power/Data Center has (1) duplex receptacle and 2 blank data ports for RJ-45 modules (purchased separately).

With 1 Power/Data Center Per Table

With 2 Power/Data Centers Per Table

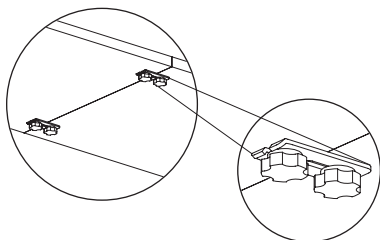

CONNECTOR BRACKETS

When jumpers are used to connect power from table to table, connector brackets must be used to prevent separation and damage to electrical system. Specify A4W Set of 2 Connecting Brackets option with each table. See TABLE CONNECTOR BRACKETS OPTION on page 166.

### TABLE CONNECTOR BRACKETS OPTION

Connector brackets are required when single circuit or multi circuit electric systems are installed in 2 or more tables to prevent separation and damage to electrical system.

The set of 2 brackets consists of 2 steel plates and 4 thumb screws per table. Tops are predrilled for connector brackets. Brackets are attached using thumb screws into threaded inserts. No tools are required. Brackets are self storing under the top when not being used.

Connector brackets are sold as an option of the top. However, all tops are predrilled so connector brackets can also be retrofit in the field, no tools required. For retrofit, purchase brackets as a separate model number TC1 in a set of 2 to install on previously purchased tables (see page 188).

#### TOP OPTION:

##### A4V No Connector Brackets

Connector brackets are required when a single or multi circuit electrical system is installed in 2 or more tops.

Set of 2 Connecting Brackets

##### A4W Option: Set of 2 Connector Brackets

Add A4W to model number to order as an option of the table.

#### MODEL NUMBER (retrofit in the field):

##### TC1 Model Number: Set of 2 Connector Brackets

Order by model number for retrofitting connector brackets in the field.

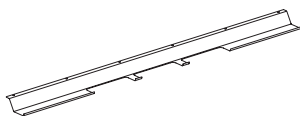

When storing tables, the jumpers between tables should be removed and stored separately in the same location as the tables.

With the 4-Trac Multi Circuit System, when reconfiguring the tables, make certain to reassemble by alternating tables with Circuit I Kits and tables with Circuit II Kits.

### WIRE MANAGEMENT TROUGHS

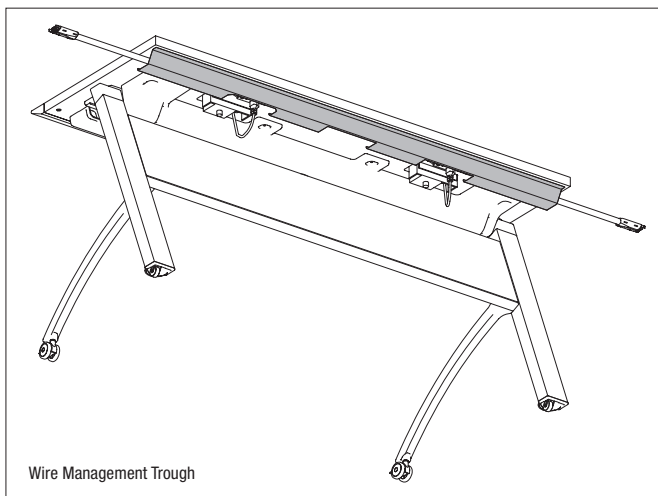

When the Perimeter Single Circuit System or the 4-Trac Multi Circuit System is specified, OFS recommends using a wire management trough to route and conceal wiring.

Wire management troughs are to be ordered separately. The black metal wire management troughs are offered in lengths to fit table widths.

- B4704WMT** Use on 48"W tables
- B5904WMT** Use on 60"W tables
- B7104WMT** Use on 72"W tables

Wire management troughs have cutouts in specific locations to allow easy accessibility to duplex receptacles.

CABLE MANAGEMENT

Vertebra Cable Manager is available to route wires from the tabletop to the floor. Order separately. Select from Transparent, Graphite, or Silver colors.

Vertebra Cable Manager

For undersurface cable management, use Cable Management Undersurface Clip (Black only) or Velcro Wire Manager (Black only) accessories. Order separately.

Cable Manager  
Undersurface Clip

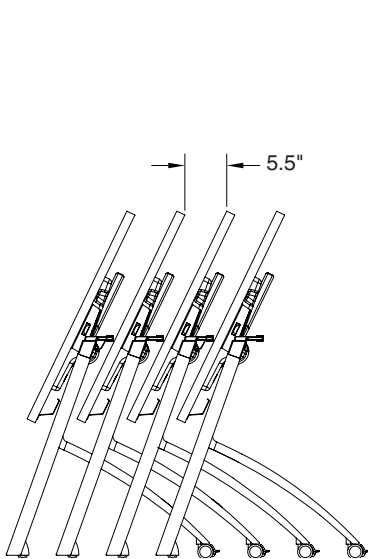

Velcro Wire Manager

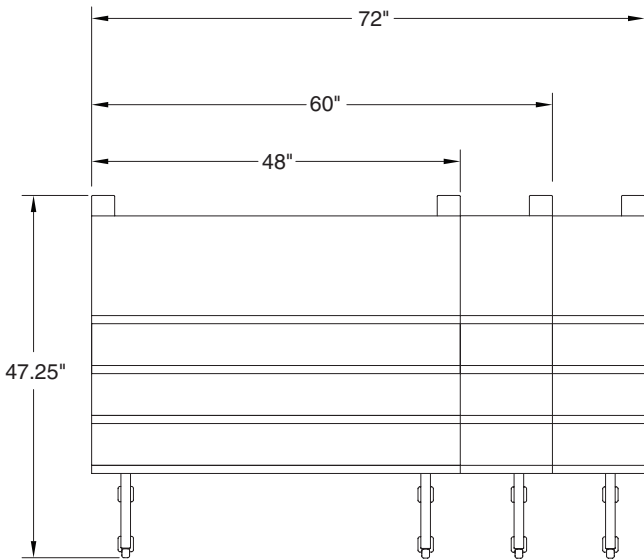

SUPPORT UNITS

Lecterns, Markerboards, Hospitality Carts, and Visual Presentation Boards are available with options to coordinate with training tables. See pages 189-192.

# Calypso, Chaya, Larson, Palmer, Tidal, and Travata

An impressive collection of tables offering the beauty and refinement reflected in our casegoods and seating. Choices in shapes, sizes, tops, and finishes create ultimate versatility.

## **wood components**

Calypso, Larson, Palmer, Travata: Apron rails and legs are solid number one select hardwood.

## **tops**

Calypso: Veneer tops are 1" thick with quartered book matched birdseye maple veneers.

Chaya: Veneer tops are .75" thick quarter grain veneer.

Larson: Clear glass tops are .5" thick with polished edges. Veneer undertops are 1" thick with "post to post" book matched veneers.

Palmer: Veneer tops are .75" thick with quartered book matched veneers. Frosted glass tops are .5" thick with polished edges.

Granite tops are .75" thick polished absolute black granite.

Tidal: Veneer tops are .75" thick quarter grain veneer.

Travata: Clear glass tops are .5" thick with polished edges.

## **metal components**

Larson, Travata: All metal components are satin nickel powder coat.

Chaya, Tidal: All metal components are brushed metal.

## **assembly**

Calypso, Larson, Palmer, Travata: Structural joints are secured with solid wood screw blocks and legs are fastened in place with lag bolts to assure maximum strength.

## **finishes**

The patented Euroluxe™ finish is a chemically re-engineered Urethane clear coat that preserves the beautiful depth and clarity of OFS' finishes, but allows for much greater performance with chemical and scratch resistance, as well as the complete elimination of dangerous formaldehyde emissions. The Euroluxe™ finish system achieves indoor air quality standards set by LEED and BIFMA furniture emission standards and allows all products to achieve GREENGUARD Indoor Air Quality Certification® by the GREENGUARD Environmental Institute.

SilverBan™ technology is an antimicrobial utilizing silver ions infused into the Euroluxe™ wood finish for antimicrobial protection on all exposed wood surfaces. SilverBan™ inhibits the growth of mold, mildew, fungus and bacteria on wood surfaces, as well as odors caused by bacterial growth, by 99.99%.

# Myriad

An impressive collection of tables offering the beauty and refinement reflected in our casegoods and seating. Choices in shapes, sizes, tops, legs, and finishes create ultimate versatility.

## **veneer**

Myriad: Exposed surfaces are number one select veneer. Tops are swing matched to assure proper grain balance. Select straight grain patterns are used overall to maintain consistency between tables.

## **tops**

Myriad: Veneer tops are 1.1875" thick and utilize 5-ply construction. Frosted glass tops are .25" thick with polished edges within a solid wood frame. Solid surface tops are .125" thick backed by a .625" plywood core within a solid wood frame. Tops are profiled on all sides.

## **legs**

Legs are molded from solid hardwood. Myriad utilizes 14 gauge steel leg brackets with a black powder coat or brushed nickel finish to resist scratching.

## **assembly**

Structural joints are secured with solid wood screw blocks and legs are fastened in place with lag bolts to assure maximum strength.

## **finishes**

The patented Euroluxe™ finish is a chemically re-engineered Urethane clear coat that preserves the beautiful depth and clarity of OFS' finishes, but allows for much greater performance with chemical and scratch resistance, as well as the complete elimination of dangerous formaldehyde emissions. The Euroluxe™ finish system achieves indoor air quality standards set by LEED and BIFMA furniture emission standards and allows all products to achieve GREENGUARD Indoor Air Quality Certification® by the GREENGUARD Environmental Institute.

SilverBan™ technology is an antimicrobial utilizing silver ions infused into the Euroluxe™ wood finish for antimicrobial protection on all exposed wood surfaces. SilverBan™ inhibits the growth of mold, mildew, fungus and bacteria on wood surfaces, as well as odors caused by bacterial growth, by 99.99%.

## ***finish options***

### Veneer

MCC - Crescent Cherry  
MFC - Formal Mahogany/Cherry  
MGC - Grand Cherry  
MLC - Light Cherry  
MNC - Natural Cherry  
MSC - Sable/Cherry  
MVC - Vintage Mahogany/Cherry  
MAW - American Walnut  
MGW - English Walnut (Quartered)  
MEW - Executive Walnut  
MFW - Formal Mahogany/Walnut  
MLW - Legacy Walnut

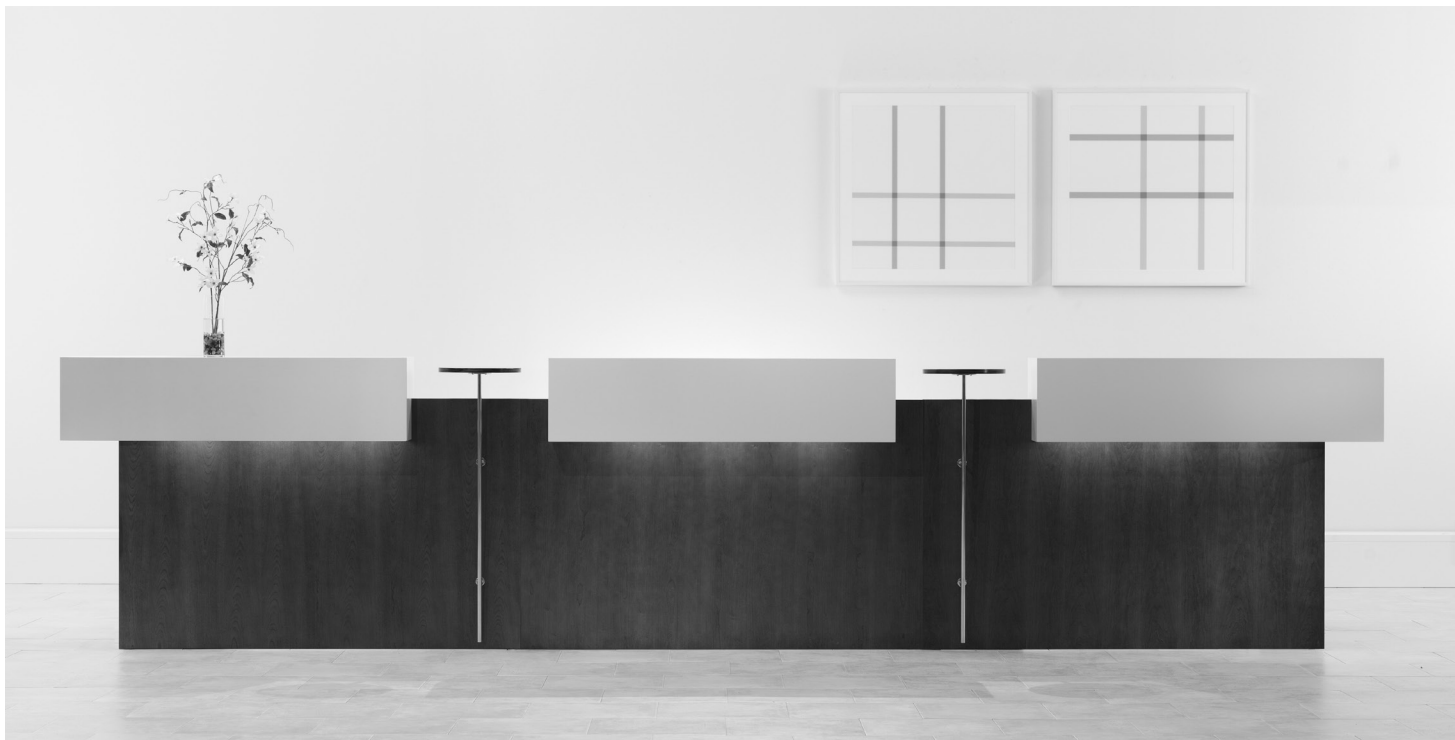

MNW - Natural Walnut (Quartered)  
MSW - Sable/Walnut  
MVW - Vintage Mahogany/Walnut  
MHM - Honey Maple  
MLM - Light Maple  
MNM - Natural Maple  
MCO - Chestnut Oak (Quartered)  
MRO - Clear Oak (Quartered)  
MSO - Espresso Oak (Quartered)  
MUO - European Oak (Quartered)  
MGO - Steel Grey Oak (Quartered)

### Laminate

CHP - Light Cherry Laminate  
MFP - Formal Mahogany/Cherry Laminate  
VCP - Vintage Mahogany/Cherry Laminate  
LMP - Light Maple Laminate  
MEP - English Walnut (Quartered) Laminate  
EWP - Executive Walnut Laminate  
NWP - Natural Walnut (Quartered) Laminate  
VMP - Vintage Mahogany/Walnut Laminate  
STP - Steel Grey Oak (Quartered) Laminate

# Element

A clean, linear reception collection that offers a wide range of material options, surface finishes and components allowing you to mix and match to create the perfect introduction to your space.

## **veneer**

Exposed wood surfaces are number one select cherry, walnut, maple or oak veneers. Drawer fronts are matched in sets to assure proper grain balance. Select straight and quarter grain patterns are used overall to maintain consistency between individual units.

## **worksurfaces**

Worksurfaces are 1.1875" thick utilizing 3-ply construction. Durable scratch-resistant matte finish on all units. High pressure laminate worksurfaces are 3-ply construction with .050 thickness for high impact resistance. Available in Square Edge only.

## **file drawers**

All file drawers accommodate letter or legal filing. Filing hardware is black powdercoated to prevent corrosion.

## **drawer construction**

0.4375" thick unidirectional plywood drawer sides and backs are assembled using rigid dowel construction. Drawers feature 0.25" thick drawer bottoms. Drawer interiors are sanded and finished.

## **drawer suspension**

High quality drawer suspensions carry a lifetime warranty. Box and file drawers are full extension. All suspension systems feature positive and cushioned in/out stops, steel ball bearings and a durable finish to ensure a smooth ride.

## **locking**

Pedestal locks secure all drawers with the turn of a single key. All units are standard shipped keyed alike. Removable lock cores allow for rekeying at a later date. For offices to be keyed differently, keying requirements must be specified on the purchase order at the time the order is placed.

## **assembly**

Units feature mitered case construction for ultimate stability. Structural joints are secured by 16-gauge steel angle brackets and wood glue blocks. Adjustable levelers feature insert nuts to prevent glide tear out.

## **finishes**

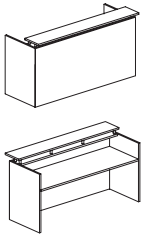

The patented Euroluxe™ finish is a chemically re-engineered Urethane clear coat that preserves the beautiful depth and clarity of OFS' finishes, but allows for much greater performance with chemical and scratch resistance, as well as the complete elimination of dangerous formaldehyde emissions. The Euroluxe™ finish system achieves indoor air quality standards set by LEED and BIFMA furniture emission standards and allows all products to achieve GREENGUARD Indoor Air Quality Certification® by the GREENGUARD Environmental Institute.

SilverBan™ technology is an antimicrobial utilizing silver ions infused into the Euroluxe™ wood finish for antimicrobial protection on all exposed wood surfaces. SilverBan™ inhibits the growth of mold, mildew, fungus and bacteria on wood surfaces, as well as odors caused by bacterial growth, by 99.99%.
