FIELD INSTALLED CORES & KEYS

Field Installed Cores & Keys

Select the "LOCK" option when ordering product with a lock. The product will initially ship with a plastic plug, which will be removed in the field and the lock core installed.

Cores & Keys will ship in a separate package. Multiple cores and keys may be shipped together in one package.

You do not need a Core Change to install the original lock core. Once installed, a Core Change is required for removal. A Core Change may be ordered for **\$36** list.

USING LOCK OPTION

When using "LOCK" option your cores and keys must be ordered separately by ordering **LOCK-SET(s)** (see below for ordering instructions) to satisfy the number of locking mechanisms required for product on your PO.

Five lock core models are available to pick from to be field installed. They are:

LOCK-SET- 1

This includes 1 core & 1 key

LOCK-SET- 2

This includes 2 cores & 2 keys

LOCK-SET- 3

This includes 3 cores & 3 keys

LOCK-SET- 4

This includes 4 cores & 4 keys

LOCK-SET- 5

This includes 5 cores & 5 keys

The options available on these models are:

OPTION 1: Color (Black, Nickel or Brass)

OPTION 2: Type (Alike, Random or Consecutive)

OPTION 3: Starting Key # (This applies to the Alike and Consecutive types only)

OPTION 4: Number of Sets

KEYING TYPES

Three keying options are available to pick from to be field installed. (Keyed Alike, Keyed Random & Keyed Consecutive)

Keyed Alike all cores and keys on that line will match the starting key number selected.

100

100

100

Keyed Random all cores and keys on that line will be randomly selected. You do not have to pick a key number with this option.

Note: you could end up with two of the same number when ordering large quantities.

101

128

143

Keyed Consecutive all keys included in the quantity will be numbered in consecutive order starting with the starting key number you select. This will make sure no two numbers are the same. You must pick a starting key number.

100

101

102

Standard Key # numbers range between 100-200 when using the Nickel color and 100-150 when using Black or Brass. Additional numbers 151-999 are available when using Black or Nickel Cores. There is no additional charge for key numbers 151-999 but they could potentially add additional lead time.

EXAMPLES

Example of using Keyed Alike

If you have one office that requires multiple cores & keys which all need to be the same lock number you could order

Model	Color	Type	Starting #	Number of Sets
LOCK-SET-2	Black	Alike	100	1

In this scenarios you would receive (2) cores and keys with the key number of 100.

Example of using Keyed Random

If you had 8 workstations that required one unique core & key per user you could order

Model	Color	Type	Starting #	Number of Sets
LOCK-SET-1	Black	Random	n/a	8

In this scenario you would receive (8) cores and keys consisting of 8 different numbers chosen randomly.

Example of using Keyed Consecutive

If you had multiple offices that required (2) cores & keys per office where each office requires matching keys you could order

Model	Color	Type	Starting #	Number of Sets
LOCK-SET-2	Black	Consecutive	100	6

In this scenario you would receive (6) sets of cores and keys consisting of key numbers that would start from 100. You would have (2) 100's, (2) 101's, (2) 102's... (2) 105's.
