May 2022 Update

Effective May 16, 2022, OFS and Carolina will implement a 9% increase on list prices.
The 9% is not reflected in the January 2022 price list.

For the most accurate pricing (options, grades, etc.) please reference your eTools
(CET Designer, ProjectMatrix, 2020, etc)

carolina
an OFS company

Surcharge

Effective April 4, 2022, a 3% surcharge on net prices will be applied.

FIELD INSTALLED CORES & KEYS

Field Installed Cores & Keys

Select the "LOCK" option when ordering product with a lock. The product will initially ship with a plastic plug, which will be removed in the field and the lock core installed.

Cores & Keys will ship in a separate package. Multiple cores and keys may be shipped together in one package.

You do not need a Core Change to install the original lock core. Once installed, a Core Change is required for removal. A Core Change may be ordered for **\$36** list.

USING LOCK OPTION

When using "LOCK" option your cores and keys must be ordered separately by ordering **LOCK-SET(s)** (see below for ordering instructions) to satisfy the number of locking mechanisms required for product on your PO.

Five lock core models are available to pick from to be field installed. They are:

LOCK-SET- 1

This includes 1 core & 1 key

LOCK-SET- 2

This includes 2 cores & 2 keys

LOCK-SET- 3

This includes 3 cores & 3 keys

LOCK-SET- 4

This includes 4 cores & 4 keys

LOCK-SET- 5

This includes 5 cores & 5 keys

The options available on these models are:

OPTION 1: Color (Black, Nickel or Brass)

OPTION 2: Type (Alike, Random or Consecutive)

OPTION 3: Starting Key # (This applies to the Alike and Consecutive types only)

OPTION 4: Number of Sets

KEYING TYPES

Three keying options are available to pick from to be field installed. (Keyed Alike, Keyed Random & Keyed Consecutive)

Keyed Alike all cores and keys on that line will match the starting key number selected.

100

100

100

Keyed Random all cores and keys on that line will be randomly selected. You do not have to pick a key number with this option.

Note: you could end up with two of the same number when ordering large quantities.

101

128

143

Keyed Consecutive all keys included in the quantity will be numbered in consecutive order starting with the starting key number you select. This will make sure no two numbers are the same. You must pick a starting key number.

100

101

102

Standard Key # numbers range between 100-200 when using the Nickel color and 100-150 when using Black or Brass. Additional numbers 151-999 are available when using Black or Nickel Cores. There is no additional charge for key numbers 151-999 but they could potentially add additional lead time.

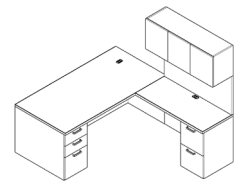

EXAMPLES

Example of using Keyed Alike

If you have one office that requires multiple cores & keys which all need to be the same lock number you could order

Model	Color	Type	Starting #	Number of Sets
LOCK-SET-2	Black	Alike	100	1

In this scenarios you would receive (2) cores and keys with the key number of 100.

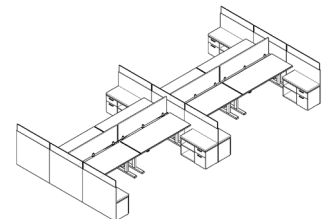

Example of using Keyed Random

If you had 8 workstations that required one unique core & key per user you could order

Model	Color	Type	Starting #	Number of Sets
LOCK-SET-1	Black	Random	n/a	8

In this scenario you would receive (8) cores and keys consisting of 8 different numbers chosen randomly.

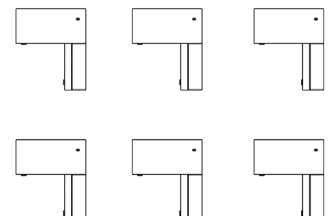

Example of using Keyed Consecutive

If you had multiple offices that required (2) cores & keys per office where each office requires matching keys you could order

Model	Color	Type	Starting #	Number of Sets
LOCK-SET-2	Black	Consecutive	100	6

In this scenario you would receive (6) sets of cores and keys consisting of key numbers that would start from 100. You would have (2) 100's, (2) 101's, (2) 102's... (2) 105's.

Exposed surfaces are number one select cherry veneers. Back panels and drawer fronts are matched in sets to assure proper grain balance. Select straight and close grain patterns are used overall to maintain consistency between individual units.

Worksurfaces feature 1.25" thick tops utilizing 5-ply construction. Lumber banded edges are mitred at the corners. High pressure laminate worksurfaces are 3-ply construction with .050 thickness for high impact resistance.

All executive file drawers accommodate letter or legal filing and letter-size double file capabilities. Filing hardware is finished to prevent corrosion. Writing slides feature OFS' exclusive "Neoprene Channel" providing a snagless and quiet in-out motion.

0.4375" thick unidirectional plywood drawer sides and backs are assembled using rigid dowel construction. Drawers feature 0.25" thick drawer bottoms. Drawer interiors are sanded and finished.

High quality drawer suspensions carry a lifetime warranty. Box and file drawers are full extension. All suspension systems feature positive and cushioned in/out stops, steel ball bearings and a durable finish to ensure a smooth ride.

Central locking secures all drawers with the turn of a single key. Specific key requirements to be specified on the purchase order at the time the order is placed for field installation (ships separately). Removable lock cores allow for re-keying in the field.

Units feature tenon-and-groove case construction and mortise-and-tenon pedestal construction for ultimate stability. Structural joints are secured by 16-gauge steel angle brackets and wood glue blocks. Adjustable levelers feature insert nuts to prevent glide tear out.

See Green Hide Sierra at ofs.com for color selections.

Lancaster antique pulls. Center drawers & tray drawers use the smaller pull - 2.9375" hole spacing. Box drawers & file drawers use the larger pull - 3.4375" hole spacing

STORAGE UNITS

Multiple storage cabinets, storage wardrobes or storage depth open bookcases cannot be used side-by-side as standard items - contact your CSR for information.

GANGING BOOKCASES

Classic bookcases with crowns and bases can be ganged to create multiple lengths of bookcase units.

Single and double bookcases are built up and ship assembled with crown and base attached. Triple bookcases are modular and require three chassis plus crown and base (five pieces per triple unit).

Gang one unit with flat connecting end on right and one unit with flat connecting end on left. For longer lengths, add single or double center unit(s) with flat connecting ends on right and left.

POWER SUPPLIES / CONFERENCE BASES

When centering a power supply over a base, please refer to the following:

Y = Can use standard base

M = Base must be a modification

X = Not Applicable - PS will not work over base

* Power supplies will not be concealed by base but may be located in center of base (in the V)

** PS-78, PS-79B, PS-79S, PS-80B and PS-80S will fit over these bases if the Power Supply is rotated. The base and corresponding top will need to be modified.
