May 2022 Update

Effective May 16, 2022, OFS and Carolina will implement a 9% increase on list prices.
The 9% is not reflected in the January 2022 price list.

For the most accurate pricing (options, grades, etc.) please reference your eTools
(CET Designer, ProjectMatrix, 2020, etc)

carolina
an OFS company

Surcharge

Effective April 4, 2022, a 3% surcharge on net prices will be applied.

FIELD INSTALLED CORES & KEYS

Field Installed Cores & Keys

Select the "LOCK" option when ordering product with a lock. The product will initially ship with a plastic plug, which will be removed in the field and the lock core installed.

Cores & Keys will ship in a separate package. Multiple cores and keys may be shipped together in one package.

You do not need a Core Change to install the original lock core. Once installed, a Core Change is required for removal. A Core Change may be ordered for **\$36** list.

USING LOCK OPTION

When using "LOCK" option your cores and keys must be ordered separately by ordering **LOCK-SET(s)** (see below for ordering instructions) to satisfy the number of locking mechanisms required for product on your PO.

Five lock core models are available to pick from to be field installed. They are:

LOCK-SET- 1

This includes 1 core & 1 key

LOCK-SET- 2

This includes 2 cores & 2 keys

LOCK-SET- 3

This includes 3 cores & 3 keys

LOCK-SET- 4

This includes 4 cores & 4 keys

LOCK-SET- 5

This includes 5 cores & 5 keys

The options available on these models are:

OPTION 1: Color (Black, Nickel or Brass)

OPTION 2: Type (Alike, Random or Consecutive)

OPTION 3: Starting Key # (This applies to the Alike and Consecutive types only)

OPTION 4: Number of Sets

KEYING TYPES

Three keying options are available to pick from to be field installed. (Keyed Alike, Keyed Random & Keyed Consecutive)

Keyed Alike all cores and keys on that line will match the starting key number selected.

100

100

100

Keyed Random all cores and keys on that line will be randomly selected. You do not have to pick a key number with this option.

Note: you could end up with two of the same number when ordering large quantities.

101

128

143

Keyed Consecutive all keys included in the quantity will be numbered in consecutive order starting with the starting key number you select. This will make sure no two numbers are the same. You must pick a starting key number.

100

101

102

Standard Key # numbers range between 100-200 when using the Nickel color and 100-150 when using Black or Brass. Additional numbers 151-999 are available when using Black or Nickel Cores. There is no additional charge for key numbers 151-999 but they could potentially add additional lead time.

EXAMPLES

Example of using Keyed Alike

If you have one office that requires multiple cores & keys which all need to be the same lock number you could order

Model	Color	Type	Starting #	Number of Sets
LOCK-SET-2	Black	Alike	100	1

In this scenarios you would receive (2) cores and keys with the key number of 100.

Example of using Keyed Random

If you had 8 workstations that required one unique core & key per user you could order

Model	Color	Type	Starting #	Number of Sets
LOCK-SET-1	Black	Random	n/a	8

In this scenario you would receive (8) cores and keys consisting of 8 different numbers chosen randomly.

Example of using Keyed Consecutive

If you had multiple offices that required (2) cores & keys per office where each office requires matching keys you could order

Model	Color	Type	Starting #	Number of Sets
LOCK-SET-2	Black	Consecutive	100	6

In this scenario you would receive (6) sets of cores and keys consisting of key numbers that would start from 100. You would have (2) 100's, (2) 101's, (2) 102's... (2) 105's.

LAMINATE

Quality laminate panel construction using thermally-fused laminate with 1mm PP edge.

PRIMARY WORKSURFACE

1" thick worksurfaces are thermally-fused laminate with a 2mm PP edge. Primary worksurfaces are profiled on approach and user sides; secondary worksurfaces are profiled on user side only. Durable scratch-resistant matte finish on all units. Optional high pressure laminate tops available.

RECESSED DESK MODESTY

30"D and 36"D Rectangular Desk - 3"
36"D Bow Desk (Ends are 30") - 3"

PEDESTALS

Full or 3/4 pedestals with full modesty panels are standard.

WIRE MANAGEMENT

Wire management is standard in returns, bridge units, credenzas, corner units and hutch units.

DRAWERS

Engineered composite wood material with mitered corners provides excellent strength and durability. Woodgrain patterned drawer sides provide a consistent appearance and are stain resistant and easily cleaned.

FILE DRAWERS

File drawers have full extension, progressive action slides with steel ball bearing suspensions. They accommodate letter or legal filing.

END AND BACK PANEL GRAIN DIRECTION

End panels on all desks, credenzas, returns, bridges, P-tables, bullet tables, wardrobes, lateral files, bookcases, corner units, cockpit corner units, modular pedestals, shells and wing assemblies are all vertical grain.

Back panels on units that are 60" overall and larger have horizontal grain direction.

LOCKING

Pedestal locks secure all drawers with the turn of a single key. All units are standard shipped keyed alike. Specific key requirements may be specified on the purchase order at the time the order is placed for field installation (ships separately). Removable lock cores allow for re-keying in the field.

Built up units (desks, credenzas, returns, etc.) locking is on inside of pedestal except for multi-files or lateral files. Multi-files, lateral files and modular products locking is on front of pedestal.

FILING

See page 1,130 for diagrams of all Pulse filing capabilities.

POWER CUTOUT LOCATIONS

To order, add location code(s) to model number.

Example: 4-48RT | LC2 | EW | QV
Model Number Finish Edge Power Cutout

NO CUTOUT

QR No cutout

POWER CUTOUTS BETWEEN BASES

QS Between 1st base and 2nd base

QT Between 2nd base and 3rd base

POWER CUTOUTS OVER BASES

QV Over 1st base

QW Over 2nd base

QX Over 3rd base

POWER SUPPLIES / CONFERENCE BASES

When centering a power supply over a base, please refer to the following:

Y = Can use standard base

M = Base must be a modification

X = Not Applicable - PS will not work over base

* Power supplies will not be concealed by base but may be located in center of base (in the V)

** PS-78, PS-79B, PS-79S, PS-80B and PS-80S will fit over these bases if the Power Supply is rotated. The base and corresponding top will need to be modified.
